

PANIMAYA PREETHI

MBA Candidate — Aspiring Business Analytics Professional

Chennai, India | +91 7904755495 | panimayapreethi@gmail.com |linkedin.com/in/Panimaya-preethi

PROFESSIONAL SUMMARY

Results-oriented MBA candidate with a strong foundation in business administration and hands-on experience in data analysis, digital tools, and project execution. Proficient in SQL and Power BI for data querying, dashboard creation, and deriving actionable insights. Complemented by technical skills in Python (Basics), Advanced Excel, and HTML/CSS. Seeking to apply analytical thinking and business acumen in a Business Analytics internship to support data-driven decision-making.

EDUCATION

Master of Business Administration (MBA & PGPM) 2025 - 2027

ISSM Business School, Chennai

Bachelor of Business Administration (BBA) 2022 - 2025

PSG College of Arts and Science, Coimbatore

SKILLS

Technical Skills: SQL (Queries, Joins, Aggregations), Power BI (Dashboards, Reports), Advanced Excel (Pivot Tables, VLOOKUP), Python (Basics), HTML & CSS, Web Development, Video Editing

Soft Skills: Analytical Thinking, Problem Solving, Communication, Self-Learning

PROJECTS & EXPERIENCE

Global Retail Profit Analysis — Power BI May 2026

Built an interactive Power BI dashboard analysing global sales and profit trends across 10+ countries, regions, and product categories from a 20,000-row retail dataset sourced from Kaggle. Derived insights on discount impact on profitability and order priority distribution across APAC, EU, and US markets to support data-driven business decision-making.

ApplyWise - Job Application Tracking & Analytics Platform — Web Development June 2026

Designed and developed a responsive web application to help job seekers track applications across multiple platforms. Built four core modules: Application Tracker, Dashboard, Analytics, and AI Recommendation System. Developed an end-to-end analytics product featuring AI-powered recommendations and performance insights.

Data-Driven Workshop — AIM - Association of Intellectual Management Jan 2026

Designed and conducted Advanced Excel training sessions covering Pivot Tables and VLOOKUP functions for 1,200+ students across multiple colleges. Analysed participant feedback data to measure learning outcomes and improve future workshop effectiveness.

Major Research Project: Social & Economic Impact of Flood in Tuticorin Aug 2024

Surveyed 160 respondents across four flood-affected areas and analysed social, economic, and health impacts. Applied statistical techniques including Chi-Square and ANOVA ($p = 0.000$) to evaluate research findings. Designed questionnaires, interpreted 33 data variables, and delivered a comprehensive research report with policy recommendations.
